

Hazard Tree Removal Checklist

SKAGITCOUNTYWA.GOV

Each project is unique in its overall design, size, and configuration and is also distinctive as to property location, each of these factors may trigger additional requirements. Some properties have specific requirements based on environmental factors which will have an impact on the development proposal.

If you have any questions, please contact [Ask a Permit Technician](#).

Hazard Tree Removal Submittal Checklist

- ***This only applies to tree removal in protected critical areas***
- The applicant must flag tree(s) they are hoping to remove
- Hazardous tree removals are done in a *critical area or critical area buffer* to remove hazardous, diseased or dead trees and vegetation by the landowner - permitted when necessary to control fire, halt spread of disease, avoid landslides or threat to existing structures or aboveground utility lines.

Please upload the required attachments listed below; attachments must be in PDF format. During review project specific documents may be identified and required for resubmittal.

Required Documents		Additional Information
☐	Site Plan	See: Residential Site Plan Checklist
